What is On Demand Video Remote Interpreting (VRI)?

On Demand Video Remote Interpreting (VRI) is a service providing clients with access to Interpreters remotely online, to deliver either sign language or spoken Interpreting services, at any given time.

On Demand VRI allows the client to see the Interpreter face to face and have a conversation with them, as they would do in real life, much like Skype or Face time.

How does this work?

Remote or off site Interpreters, who are online on IMS.Direct Interpreter Portal, will receive offers of work for On Demand VRI assignments through their portal, as and when the demand comes in.

IMS.Direct Interpreter Portal is an online portal that is available 24 hours per day, 7 days per week 365 days per year, providing you with easy access to deliver On Demand VRI services to thebigword clients.

What do I Need to Deliver a Good On Demand Experience?

To facilitate the communication, an online internet connection is required along with a webcam and a microphone.

If you are providing this service from your home, you will need to ensure the room you are using is free from noise, is it well lit and the backdrop behind you is the screen that has been agreed with thebigword to use.
